

Floral Urns

Below are the urns available for use at weddings. Please note that if you choose the "Sanctuary Urns" your flowers must be remaining for Sunday services. If you wish to use our urns for the placement of wedding flowers, but your flowers are not remaining, please note that your florist must remove the arrangements from the urns as none of our urns can be removed from the church. The interior dimensions are shown so that your florist knows the correct size insert to use. Please contact the Wedding Administrator for any questions pertaining to the use of these urns.

Urn is placed on the tall pedestals (15" Base, 5' Height) for Sanctuary weddings; the exact location of the pedestals on the Chancel area is left to the discretion of the wedding party.

Urn is placed on the short pedestals (10" Base, 3' Height) for Chapel weddings and are to be located on either side of the cross.

Low Silver
Wedding Urns
